

# CREATE NODE-RED SERVICES

Team ID	PNT2022TMID04551
Project name	Signs with Smart Connectivity for Better Road Safety

The screenshot displays the Node-RED web interface in a browser. The browser's address bar shows the URL: `node-red-ydknv-2022-11-17.eu-gb.mybluemix.net/red/#flow/55b9832a46fc1724`. The interface includes a left sidebar with a 'filter nodes' search bar and two categories of nodes: 'common' (inject, debug, complete, catch, status, link in, link call, link out, comment) and 'function' (function, switch, change, range, template, delay). The main workspace, titled 'Flow 1', contains a flow with two nodes: an 'inject' node with the text 'Hello Node-RED!' and a 'msg.payload' node. The right sidebar shows the user 'Aswanth' with a 'Logout' button, a list of flows including 'Flow 1', and a status section indicating the flow is running with ID '\*55b9832a46fc1724\*'. A message at the bottom of the right sidebar states: 'Pressing enter will edit the first node in the current selection'.
