

Project Design Phase- ISolution Architecture

Date	27 September 2022
Team ID	PNT2022TMID04551
Project Name	Signs with Smart Connectivity for BetterRoad Safety
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes –that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspectsof the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined,managed, and delivered.
